About Birmingham Music Archive

The Birmingham Popular Music Archive has been established in order to recognise and celebrate Birmingham's rich musical heritage. They want Birmingham to take pride in its musical heritage and to start shouting out about it. They want to hear from anyone with stories or pictures to share, that represent the popular music scene in Birmingham.

I wanted to take the stress away from having to learn and run the BMA's payroll. I have no experience in this and felt I wanted an organisation I could trust, and who would understand the needs of a small social enterprise.

BVSC have been fantastic in setting up the systems and dealing with all of the necessary required paperwork and documentation for the BMA.

I get a report each month, pay my Employers contributions and have no need to worry about it. It's a great service and I'd recommend BVSC to anyone!

Jez Collins, Birmingham Music Archive CIC
