

Datus

Services provided

Payroll, independent examination, tax returns, advice and guidance regarding governance, compliance and finance.

About Datus

DATUS are a small peer led charity delivering contracts in the problematic substance use and criminal justice arenas. The guiding ethos is to provide our beneficiary group with the tools and infrastructure to build provision with us and be involved in every aspect of our service from governance to delivery. This approach is well known but not widely used - we view our beneficiary group as our biggest resource. Their ideas and input drive innovative change, allowing us to squeeze the most value in terms of individual outcomes from an ever decreasing pot of money.

BVSC have been key in making sure our organisation has good financial governance and is compliant with all relevant legislation and standards.

Working with BVSC, DATUS have experienced a level of commitment and cooperation that goes above and beyond our agreements and anything else we have experienced.

BVSC, I believe through their varied experience of working with many different organisations, seem to understand that our organisational ethos is very different from most medium to large charities. Instead of trying to make us fit the mold they have worked alongside us facilitating our growth without ever asking us to compromise our ethos or approach.

BVSC have acted as a trusted confidant and guide through the process of DATUS becoming an independent fully compliant and functioning charity.

It is fair to say without BVSC's guidance and support DATUS we would not be the successful organisation it is today.

James Sadler, Service Manager , DATUS- Enabling Recovery
