The Birmingham Foster Care Association was established in 1989. It supports Birmingham City employed Foster Carers and Connected Persons.

They have a beautiful well-used garden, where young children play and have contact with their families and foster families.

However it is in need of some maintenance work to brighten it up and make it a more welcoming environment for all who use it.

The charity would also benefit from any donations, garden furniture and kids toys.
Fresh coat of paint
PAINTING

In the garden, there are terraces, shelters and garden furniture, which all in need of a fresh paint or varnish.

This will not only help to brighten up the garden but it will help to maintain the wood throughout the winter months.
**TASK 2**

**Repairing bird stands and making habitat boxes**

**CARPENTRY**

The bird stands are in a very poor state. It would be great for a team to be able to repair the old ones to encourage wildlife into the garden.

Potential to make new habitat boxes or planters to bring new life into the space.
Laying fresh new ground

GARDENING

The edge of this pathway has been cut back, but it is wasted space. Landscaping this area would make way for another place for children to play.
ABOUT BVSC TEAM CHALLENGE

BVSC is the key voluntary sector support organisation in Birmingham. As part of our programme of support for the sector we are working to engage local private businesses in volunteering and the sector.

Team Challenge Birmingham is a programme of fully-facilitated community action volunteering for companies to get involved in.

Team Challenge days make a sustainable and valuable alternative to typical team building days offering opportunities to develop team work, initiative and communication skills as well as showcasing some of the fantastic local community work that goes on in the city.

BVSC will provide you with a Project Coordinator who will organise and prepare the volunteering activity on your behalf to minimise the disruption to your core business. A trained member of staff will be on site through out your volunteering day to coordinate the project ensuring maximum output for the volunteers and the host organisation.
Ready for the Challenge...?

Contact Team Challenge Birmingham at BVSC to find out more and to get involved.
